Subject: Since when is it illegal to make money in the United States? If you don't like Microsoft products d

Since when is it illegal to make money in the United States? If you don't like Microsoft products don't buy them! It is as simple as that! I am embarrassed that my government would waste my money prosecuting the American Dream. IF the product didn't work or was too expensive, no one would buy it! It must be a pretty good company, Huh! Find something important to do like prosecuting illegal aliens.
